

Dear ACNA Board of Directors and especially the newly 'elected' Executive Committee:

I received the following letter in the mail from Johan de Nysschen, Executive VP of AOA. I wanted to be sure that you were all aware of it. I find it interesting that it echoes the concerns that I have voiced about the state of the club and its management by the Executive Committee. The fact that the EC has been silent regarding my questions is not surprising, as even AoA has now expressed that the EC should be more 'inclusive'.

It would seem that while Audi of America happily supports the ACNA, it harbors quite a different view of the Executive Committee and their machinations.

The viability of the club is currently in your hands, please see fit to rethink your actions before this progresses any further.

Open Letter to Members: Audi Club North America

Dear Audi Enthusiast:

I am writing this letter to reaffirm my personal support, and that of Audi of America, Inc., to the Audi Club of North America.

The Audi Club of North America is an independent, private organization, and while we take keen interest in the activities of the Club, Audi of America has no desire to interfere or become involved in the management and day to day administration of the Club. However, we have a vested interest in ensuring the continued growth and vibrant success of the Club.

While not wishing to become embroiled in the tension which presently exists between certain members of the Board, it is an inescapable fact that the situation is not healthy, and is not in the long-term best interests of the Club.

Our support is to the Club - not to individual members or to specific members of the Board of Directors. I would, however, encourage the Executive Management of the Club to adopt an inclusive as opposed to an exclusionary approach, and to utilize the available expertise, experience and enthusiasm of members, and to apply this in the interest of the Club which we all value highly.

We encourage all parties to work towards finding a speedy resolution,

placing the interests of the Club above all else. I would also encourage Club members to take a more active role in the affairs of the Club and to participate in elections - the democratic process does not work well in the face of voter apathy.

We look forward to the continued success of the Club, and assure you of our continued support.

Sincerely yours,

Johan de Nysschen
